

ENTHUSIASTIC GATHERING

Settlers Show A Great Interest In Methods Of Advanced Farming

Two farmers' meetings within two days, one at Woodruff on Friday evening, and one at the town hall in the town of Pelican on Sunday afternoon, meetings at opposite sides of the county were marked with enthusiasm and good attendance. Two ex-town chairmen, Mr. Kahn of Woodruff, and Mr. Towne of Pelican, got the farmers together. Seventy were out at Woodruff and about thirty in the town of Pelican. The meeting at Woodruff was held in the splendid Woodman's hall, lighted with gas. The meeting in Pelican was held in the splendid new town hall. In both communities are fine farms and very good buildings. In both communities the new crop, alfalfa, will be tried. But in Pelican it will not be an experiment, for one farmer has exhibited alfalfa for three years at the fair. Alfalfa will grow in Oneida county.

In Pelican the first farmers' club was organized, "The Pelican Farmers' Club", and Jay Miller, William Olson and August Wenzell were appointed the committee to look after the club.

One man in the town of Pelican said the town of Pelican got started early in the Guernsey cow business that town could sell to the rest. That is right. But the town of Pelican will have to hurry to beat the town of Newbold. For in Newbold one enterprising farmer, Ernest Juntgen, is looking right now for a pure-bred Guernsey sire. That is the way to start. The grade Guernsey cow is a remarkable producer of butter-fat. Throughout Oneida county are many native cows that are good milkers, and, bred to pure-bred Guernsey sires, would bear good grade Guernsey stock. From the grade Guernsey it is but a step to the pure-bred Guernsey cow. So get the pure-bred Guernsey sire.

All about Oneida county farmers should put in at least a little patch of alfalfa in the garden if they put in no more. A few handfuls of alfalfa seed, a little lime, possibly a pailful, and say ten pounds of inoculated soil from some old alfalfa patch, will start that fine crop on every farm in Oneida county this summer. One farmer in Pelican said that that would be a fine way to start as the farmers could then grow up with the crop. So let's put some alfalfa in that garden. Do it this summer too.

The County Representative took a twenty-five mile hike out around Roosevelt on Thursday. There is some good farming country out that way too. But the one thing to be noticed everywhere is the fact that clover grows wild. Wherever clover has been seeded along the old lumber roads even if it was seeded ten years ago, there you will find it now green, right under the melting snow. Clover is the crop to sow in the rotation to keep up fertility. Every three years the land should be sown to clover. That rotation is the one to follow in Oneida county. Every three years a bumper growth of second growth clover should be fall plowed and turned under. By doing this the battle for fertility is not only won but the soil is increased in fertility.

A car load of lime is on the way to Rhinelander. Nearly all soil in Oneida county can be improved by the application of lime. The University of Wisconsin desires to experiment with this lime. See the County Representative about getting some of this lime free.

As one looks about Oneida county and sees men who came into this county with small means, now getting about them good comfortable homes, he is led to wonder why it is that other men prefer to carry coal in the cities and just eek out an existence. There are yet at least 250,000 acres of good farm land in Oneida county. Why not get some of it now and begin to be prosperous?

MISSIONARY TO SPEAK

Miss Creek, a returned missionary from India, will speak at the Methodist church Sunday morning.

ON CHARGE OF MURDER

Former Resident of This City to be
Tried at Ashland

The April term of Circuit Court for Ashland county convened at Ashland this week, Judge Risjord, who succeeded Judge Parish on January 1st, presiding.

The calendar of cases to be tried is one of the largest for a number of years in Ashland county. The most important criminal case on the calendar is that of the State vs. Alvin Davis, a former Michigan prize fighter, who is alleged to have assaulted a man on the streets of Ashland with such force last November that his death resulted shortly afterwards. The cause of the assault according to Davis' story is that the man made insulting remarks to Mrs. Davis as she came out of a store.

The accused man is known quite well in Rhinelander, having made his home here for several months, a year ago, at that time working at the carpenter's trade. His past record is said to be not of the best.

KRAMER LOSES TO THE COLORED BOY

Burrell Smith Too Much For
Rhinelander Lad Here
Last Evening

Fighting Dick Kramer, Rhinelander's peppery middleweight boxer, lost to Burrell Smith, the Duluth colored boy, in the second round of what was to have been a ten round contest at the Grand Opera House last night. After the first round it could be plainly seen that the local lad was no match for Smith. He was outweighed by eight pounds and although he had the necessary grit he could not withstand the terrific wallops of his ebony skinned opponent. That Dick has sand and plenty of it no one can dispute and that he could easily put any man of his match away, there is no doubt.

Smith showed up in his usual good form. He is a clever mixer, a good ring general and an all around gentleman. He has decided to make this city his headquarters.

In the main preliminary between Nap Bruly and Kid McGuire, the two bantams, the decision was given to Bruly in the fourth round. He out-boxed and out-fought McGuire.

Fitzgibbons put Young King into cold storage in the first round. The boys were scheduled to travel six rounds, but the Rhinelander product was not in the same class with the Menominee mixer.

A fair sized audience was in attendance.

BURROWES COURSE

OF MUSIC STUDY

Mrs. Jessie Langdon-Hampton wishes to announce to the public that by May 1st, she will be able to introduce the Burrowes Course of Kindergarten Study of Music. This is a progressive course of 120 lessons and includes songs, stories, games, drills and music exercises given along lines to a definite end, by a choice of useful symbols. It develops the technical, theoretical and temperamental sides at one and the same time. Theory and technique are made so interesting that the children rejoice in them. This course includes children from 5 to 13 years of age. A public demonstration will be announced later. All

EASTER CONFIRMATION SERVICE

Confirmation was held at the Norwegian Lutheran church at 10 o'clock a. m. Easter Sunday. The church was beautifully decorated. An Easter lily on the altar faced the crowd of people which filled the church to the last chair. A musical treat was presented by a stringed quartette directed by Prof. Brueggeman, assisted by Hartvig Jentoft, Ralph Rheame and Axel Busk. A decidedly favorable impression was created as the sweet strains of music filled the church. The choir instructed by H. Jentoft, also gave two songs which pleased the audience.

FROST CAUSING MUCH TROUBLE

As the weather grows warmer the frost is penetrating to a greater depth causing many water service pipes to freeze. On Mason street where the houses have no sewer connection to enable patrons to allow their water to run sufficiently to keep it from freezing; over half the service pipes have frozen and the plumbing firms are kept busy in an endeavor to thaw out pipes. In portions of the Sixth ward, places have been found where the frost has penetrated to a depth of eight feet, more than a foot below the water mains.

TO USE ELECTRIC POWER

Matt Kristensen has this week installed a fire-horse power electric motor at his garage which will furnish power for running a lathe, drill press, punch, and other machinery used in his repair shop. With this addition to the equipment of the place Mr. Kristensen will have as complete and up-to-date a place of its kind as can be found in any city of this size.

HOME FROM MEXICO

Harvey Edwin, son of Mr. and Mrs. Julius Edwin, 31 Alban street, returned Tuesday morning from Maderio, Mexico, where he has spent the past year in saw mill work. He will remain here for some time but will probably return to Mexico later in the year.

PUTS CLOCK IN THEATER

H. C. Zander, this week, has had a self-winding and self-regulating clock installed at the Majestic theater. The clock was placed by the Western Union Telegraph Co. Correct time is received from Washington, daily. The company now has several of their clocks in this city.

ROBBINS' NO. 2 MILL DONE

The last log to be sawed in No. 2 saw mill of the Robbins Lumber Co. in Rhinelander, passed the saws at the noon whistle sounded on Friday last. In the afternoon of that day preparations were begun for taking down the mill by the Heinemanns of Merrill and Wausau, to whom it had been sold some time ago. It is not known at this time just where the plant will be re-established, the new owners having two different locations in view.

No. 2 mill was built by Geo. Clayton, at one time a prominent lumberman of Northern Wisconsin and passed from his ownership to the Johnson-Hinman Lumber Co. and later was taken over by the Robbins Company. The plant is a well equipped one and we regret to see its removal from the city, as it furnished employment to quite a number of people when in operation.

POTATOES ADVANCING

P. M. Olson, a Waupaca county potato buyer, is shipping several car loads of potatoes from this place to Milwaukee and Chicago. The present week he has been paying the farmers \$1.65 per bushel for potatoes delivered at the car. In the cities the tubers are retailing for \$1.50 a bushel and better and they promise to go higher before the new stock comes into the market at a price to be afforded by the bulk of people. Farmers who stored their crop last fall will now reap a nice sum of money.

Mrs. R. Locke entertained last night at a six o'clock dinner in honor of Mrs. Bertha Crego. Eight covers were laid. Mrs. Crego left this noon for Milwaukee to take up work in Trinity hospital, Milwaukee.—Antigo Journal.

BLUE BOOKS FOR SCHOOLS

All Schools Entitled To Copy Of Blue
Book Under The Law

Mr. F. A. Lowell,
Co. Supt. of Schools,
Rhinelander, Wis.

Dear Sir:

In reply to your letter of the 23d inst., I wish to say that under Chapter 657, Laws of 1911, the County Superintendent of Schools is entitled to a copy of the 1911 Blue Book. The Blue Books will be delivered to the County Superintendent through the County Clerks but it will take about a week or ten days before we can begin to forward books to the County Clerks, as we are receiving them in such small lots from the state printer. Under this same law, schools are entitled to a copy if they apply therefor. Application must be made by the school clerk direct to this office, as the Blue Books will not be sent to the County Superintendent for distribution as heretofore.

Yours very truly,
WILLIAM L. EISSMANN,
Supt. of Public Property.

LEAVES SCHOOL BOARD

Carl Krueger Retires After Six Years
of Service

Last Saturday night at the council meeting Carl Krueger's resignation as a member of the school board was accepted. Mr. Krueger has been an active member on the board the past six years. He has acted as a member of the teachers committee and also as member of the organization committee and a member of the building committee. He is a member of the present building committee which has adopted plans for the new high school. Mr. Krueger is not by any means the oldest member on the board but he is the only member who has visited the schools and tried to learn conditions by actual observation. Mr. Krueger is entitled to much praise for his untiring efforts in behalf of the schools. Members should not receive re-appointment who neglect their duty and never visit the schools. Most of the members of the present board have been very derelict in this matter.

UNITED IN MARRIAGE

At the home of the bride's mother on Lake street Monday Rev. B. G. Clemens of the M. E. church pronounced the words uniting in marriage, Miss Adeline Erick to Matt J. Weldenman, the ceremony being witnessed by a large gathering of relatives and friends of the contracting parties. The wedding was followed by a bountiful 5 o'clock dinner. The newly married couple received many useful gifts, both beautiful and costly.

Mr. and Mrs. Weldenman are both well known young people of this city and have the well wishes of a large number of friends for a happy journey through life.

OFFICE OF STATE SUPERINTENDENT

Madison, Wis., April 2, 1912.
To the County Superintendent:
As announced in the Educational News Bulletin, this office does not send out the Blue Books this year. Blue Books will be supplied to the schools of the state but can be obtained only upon application of the district clerk to Honorable Wm. Essman, Superintendent of Public Property, Madison, Wisconsin.

Very truly yours,
C. P. CARY, State Supt.

LIME HAS ARRIVED

The carload of lime for free distribution to the farmers of Oneida county has arrived and will be on the siding near the Rhinelander Builders' Supply Co's warehouse. This lime should be removed Friday and Saturday. See E. L. Luther at the Oneida County Training school.

Geo. W. Bennett of Fond du Lac, an old time resident of Rhinelander, is in the city to remain for some time. Mr. Bennett though well advanced in years is as spry as many men several years his junior. Since leaving Rhinelander several years ago he has been devoting his time to market gardening, having a small tract of land just outside of the city limits of Fond du Lac.

Miss Marjorie Krueger returned Sunday to Oshkosh to resume her studies at the Normal school.

NOTED VIOLINIST COMING TO CITY

Axel Skovgaard To Appear At
The Opera House Next
Wednesday

Residents of this city who were fortunate enough to have heard Skovgaard, the violinist, on his visit to Rhinelander a few years ago, will be pleased to learn that this gifted musician will again pay Rhinelander a visit, his engagement here being for next Wednesday night at the Opera House.

Skovgaard has played before King Christian of Denmark, King Oscar of Sweden, King Hakon of Norway and Emperor Wilhelm of Germany by special request, and has appeared in all the important European cities and has made a tour of many of the states of this country. In his program he is assisted by Miss Ethel May Wright, a talented soprano, and by Miss Alice McClung, pianist.

It is not often that we have an opportunity of having people as gifted as these in the musical world and on the occasion of their visit to our city they should be greeted by a large audience.

VISITS OUR TRAINING SCHOOL

Gordon B. Smith, Medford, county superintendent of schools for Taylor county, was a visitor to Rhinelander, Tuesday. Mr. Smith's visit to our city was for the purpose of inspecting our county training school, Taylor county having decided to establish a school of this kind at Medford. The gentleman will also visit at Antigo, Merrill and Wausau where he will inspect the training schools conducted in those places.

SAW MILL NOT TO RUN

Wm. Hardell, of the Pelican Lumber Co., states that the saw mill of that company located on the Pelican river two miles south of the city, will not be operated the coming summer. The planing mill is running at present and will have sufficient work to keep it in operation for some time to come.

JUNIOR PROM

Annual Social Event of High School to
Be Held Next Week

Invitations have been issued by the Junior class of the High school to the annual dancing party to be given at the Armory in honor of the Senior class, on Friday evening, April 19.

The event is looked forward to by the young people of the city each year as it is one of the enjoyable social events of the spring season.

MAY BUILD RESORT

Dan Madden, who has spent the winter at Neepit, was in the city Monday and Tuesday. Mr. Madden informed a Times representative that he is figuring on buying a site on either Tomahawk Lake or St. Germain lake near Sawyer, and erect a large and modern summer resort hotel. No deal has been closed as yet, but he is anxious to get the hotel built for the coming season.—Minocqua Times.

REPAIRS MEAT MARKET

Fred Landlois' meat market in the Hilgerman block on S. Brown street has just been repainted and repapered throughout and presents a very neat appearance. New shelving and other furniture has been installed and the goods attractively arranged. Mr. Landlois says that he is in the meat business to stay and guarantees square dealing to all patrons.

FOR RE-ASSESSMENT

It is ascertained that Judge A. H. Reid has rendered his decision in the case in which Ibbotille, of Eau Claire, sought to have his assessment on his lands in the town of Minocqua reduced. The judge has ordered the lands to be looked over again and re-valued.

The Wausau Telephone Co. moved its offices this week into the \$40,000 building which the company erected in that city. The structure is one of the finest and most up-to-date business buildings in that city.

AGRICULTURAL BOOKS AT LIBRARY

King—Irrigation And Drainage. The object of this book is to present, in a broad yet specific way, the fundamental principles which underlie the methods of culture by irrigation and drainage, and it gives practical problems dealing with the relation of water to soils and plants. This book is one of the Rural Science edited by Liberty Hyde Bailey.

King—Physics of Agriculture. From the Ohio Farmer we quote the following: "We have had books and books, great and small, almost without number upon different branches of what is now called agricultural physics, but it seems to us we can now point to one that eclipses them all in brevity and simplicity of statement, originality, of demonstration, and practical application. All in all, this is the greatest and best collection of modern agricultural scientific facts practically applied, that we have seen. Anyone, whether he is a farmer or not, a student or an old man in the field, can learn a great deal here. It is a mine of correct information."

King—The Soil. In this book which is written in a popular style, the scientific farmer and cultivator will find much that is interest and value to him. It treats of the nature, relations and fundamental principles of management. The action of the sun, air, water and plants upon the soil is dealt with in much detail, and the elements which conduce to fertility in the raising of various crops are made the subject of exhaustive treatment.

King—Ventilation. A brief treatise giving foundation facts and principles, simply but explicitly presented, and illustrated with diagrams and views of buildings. It aims to impress on parents, teachers of rural schools and farmers the necessity of good ventilation and suggests methods of installing simple systems in both old and new buildings.

Farmers will also find much material at the library from the Department of Agriculture at Washington and at Madison which will be very helpful to them.

April 3rd, 1912.

At the adjourned regular meeting of the School Board held on the 3rd day of April A. D. 1912. All members being present.

A. D. Sutton presiding. Minutes of previous meeting read and approved as read.

The following report was read: To the Board of School Commissioners, City of Rhinelander.

Gentlemen—Your Committee on Inspection of Schools, to which was referred the question of a physical examination of pupils of the City schools by the visiting nurses in the employ of the Charity League, reports the following resolution for your consideration:

WHEREAS The Charity League has kindly offered free examination of pupils of our City schools by visiting nurses in its employ, this examination being made to discover and report physical defects of any kind that might interfere with the work of such pupils, also contagious diseases:

THEREFORE, be it resolved that the Board of School Commissioners gratefully accepts such offer and authorizes such examinations with the understanding that cases that appear to be contagious shall be reported directly to the Health officer and other cases to the parents or guardian of the child concerned. The examining nurse shall keep a complete record of all cases reported by her and such record, for each week, shall be filed at some time during the following week with the secretary of the School Board.

This report shall show the teacher in charge of the pupils and the grade to which each belongs. This arrangement is subject to cancellation at any time. (Signed)

S. D. SUTLIFF
CHAS. BACKSTROM.

Moved by Krueger and seconded by Didier that this matter be postponed until next fall at the beginning of the next school term. Motion carried.

WINS AGAIN

The International Pure Food Show held in Paris March 1912, has just awarded Calumet Baking Powder the highest honors, giving them the Grand Prize and Gold Medal.

This, in addition to the Highest Award that Calumet won at the World's Pure Food Exposition in Chicago, gives Calumet the highest honors issued by two of the largest Pure Food Shows ever held and proves conclusively the superior wholesomeness, purity and uniformity of Calumet Baking Powder.

THE BEST EVER

The company which will present "The Lion and the Mouse" at the Grand Opera House, Thursday April 25, has a really wonderful array of well known people enlisted in the ranks of the organization. The management do not believe in the too common system of "one or two giving the whole show," but have organized what is undoubtedly one of the strongest casts ever brought together.

How to Select Best Seed Corn

By PROF. R. A. MOORE : Wisconsin College of Agriculture

Good and Bad Types of Kernels. The Four Kernels at the Left Are of the Proper Types to Choose. Each of the Others Is Faulty and an Ear Containing Such Kernels Should Not Be Chosen for Seed.

The first point in judging seed corn is to determine its trueness to the type or breed characteristics. There are breeds of corn, like breeds of cattle, which have peculiar colors or forms which distinguish them; as for instance, the Silver King is a white variety and the Golden Glow a yellow variety. It is difficult to distinguish between breeds of the same color, but this may be learned by experience in handling corn of different breeds. In pure corn of any breed there are certain marks which can be easily recognized.

The ideal ear is cylindrical, conforming to the standard for the variety and not crooked or too tapering.

It is as difficult to find an ear of corn perfect in shape as it is to find cows, horses and sheep with perfect forms. The shape of ears of the different varieties of corn differ as widely as the shape and form of the different pure breeds of cattle. Each class and variety has a characteristic shape peculiar to itself. For example, Silver King corn has an ear of medium length, large in circumference, while the Golden Glow has an ear considerably shorter and finer in cob and general conformation.

The most desirably shaped ear is cylindrical from butt to tip. Where ears are inclined to taper, it will be noticed that two or four rows, as a rule, are dropped near the middle of the ear. In scoring corn, take into consideration the soil and climatic conditions in which the corn is grown. The shape of a desirable ear for central Illinois would differ in many respects from the shape most desirable for Wisconsin. The shorter growing season in Wisconsin demands a shallower kernel and a smaller ear to enable the corn to mature in a short season.

The color of the grain should be uniform and true to the color standard for the variety, free from missing or discolored kernels.

The color of the cob should be a bright cherry red for yellow corn and pure white for white corn.

The color of the corn varies with the breed. The Silver King corn has a cream color, while the Boone County White has a pearly white color. Where these shades predominate they become characteristic of the breeds. Yellow breeds vary slightly in color from a pale yellow to a deep orange, and can only be known by a thorough acquaintance.

A bright cherry red cob denotes health and vigor in corn and a pale or dark red cob denotes lack of constitution or vitality. The white corn cobs should be a glistening white and not a dead pale color.

Some farmers prefer to grow corn of certain colors. From tests made by breeders of corn, and by experiment stations, it has been found that in general, color makes no difference so far as feeding value is concerned, and it is merely a matter of choice of the grower as to the color of corn he desires.

Market condition means general excellence and the degree of ripeness or maturity. Corn that shows a tendency to be loose on the cob with wide spaces between the kernels should be scored off severely under market condition.

When corn is scored from the feeder's standpoint it is not cut so severely as from the grower's or seedman's standpoint. When we consider that a bushel of corn plants about six acres and realize the importance to be attached to uniformity of stand we see the value of considering the market condition from the grower's standpoint in a critical way.

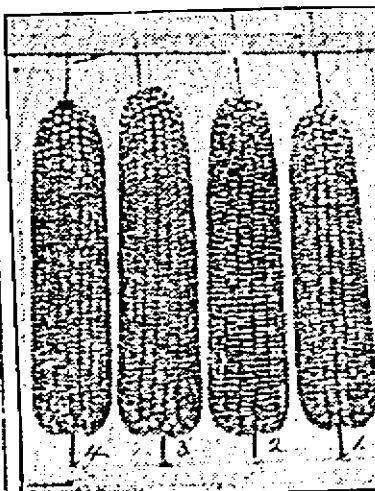

Corn will gradually become accustomed to its surroundings and will adjust itself to varying conditions of soil and climate. By selecting those ears for seed that show good market condition, even if there be but a few in the entire field, the earliness of the corn can be improved materially.

The kernels should extend over the tip of the ear in regular rows, and be uniform in size and shape. They should extend over the butt of the ear in regular rows and be well developed and uniform.

A perfect tip has a central kernel called the cap, which is completely surrounded with uniform kernels. A perfect tip is rarely found, but those which come nearest to the ideal should be chosen, provided it is not at the expense of other more important factors.

The tip kernels are likely to be flinty and of a pop corn shape, which is undesirable in dent corn. If bare tips are noticeable to quite an extent throughout the field, it may be due to the fact that the silks representing the tip kernels which were formed last were too late to receive the pollen to fertilize them. If ears having defective tips are used for seed, their undesirable characters will soon become permanent. Open tips usually accompany shallow and irregular kernels on the ear which makes the kernels on that part of the ear undesirable for planting, on account of lack of uniformity.

In judging the character of the butt of an ear of corn, the way in which the rows come over towards the shank is important. If the corn comes in too close, the ears may drop off the stalk during the ripening and not fully mature. All ears which have butts improperly filled should be rejected. Corn breeders in desiring to get a large proportion of corn to the cob, often choose ears with too small an attachment for the shank. The butt and the tip kernels are rejected for planting, because they are more likely to be mixed with other varieties and owing to their peculiar formation, they are not uniform, and interfere in the planting. They also seem weaker in germination and are more tardy in

Types of Good Ears. In Choosing Seed Corn, Select Ears as Near the Shape of Those Shown Here as Possible.

growth than kernels from the middle parts of the ear.

Kernels should be of perfect wedge shape, narrower or wider at the point, according to the variety characteristics.

They should be uniform in shape, size and color and true to the type or variety. The crown or big end of the kernel should be such that the edges of the kernels slope from tip to crown. The tip of the kernel, which is the part attached to the cob and contains the germ is rich in protein and oil and of the highest feeding value. For this reason a plump tip usually indicates vitality.

The kernels on the cob may be irregular, being deeper at the butt than at the tip. This makes the kernels non-uniform in size and renders the corn almost wholly unfit for seed. No machine will plant kernels of this type so as to get a uniform stand.

Kernels with weak or shriveled tips should be discarded, no matter how well the outside of the ear may look. At least 85 per cent. of the oil in the kernel is in the germ, hence corn with well formed germs is desirable. Tests by the Illinois experiment station show that the oil in corn may vary from 2 1/2 to 7 1/2 per cent. and protein from 6 1/2 to 16 per cent. If seed corn contains a large amount of protein and oil the crop grown from this seed will be high in these desirable features.

Standard measurements for corn produced in northern, middle and southern Wisconsin, are as follows: Length, northern section 8 to 9 inches, central, 8 1/2 to 9 1/2 inches, southern 8 1/2 to 9 1/2 inches. Long ears are objectionable because they usually have poor butts and tips, shallow kernels and hence a low per cent. of grain to the ear. In general the circumference should be three-fourths the length. The standards for various sections in Wisconsin are: Northern 6 to 6 1/2 inches, central 6 1/2 to 7 inches, southern 7 to 7 1/2 inches.

Use

The Best Investment
Any Cow Owner Can Make

That's what nearly a million and a half of cow owners the world over have found the De Laval cream separator to be.

A De Laval farm separator costs from \$35 to \$160—according to capacity. It saves butter fat and produces a cream of superior quality over any setting system or any other separator every time it is used—twice a day—730 times a year.

It involves far less labor than any setting system, and runs easier, has greater capacity and lasts from two to ten times longer than any other separator.

That's how a De Laval separator saves at least its cost the first year, and frequently in a few months, and then goes right along saving your money year after year.

We have an arrangement whereby you can make a partial payment at time of purchase, and pay the balance on such liberal terms that your machine will more than save its cost while you are paying for it.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest.

Mrs. S. V. Kelly and brother, Wm. Rowen, were called to Royalton, Sunday by the death of their brother, Jas. Rowen, who died at Springdale, Montana. The remains were brought to the old home of the family at Royalton for burial.

AFTER GRIP

Look Out for Trouble.
The after-effects of the Grip are apt to be serious, but a normal healthy condition may be restored in a surprisingly short time by Vinol.

Watertown, Wis.—"After a severe attack of the Grip my system was in a very weakened, nervous and run-down condition. I began taking Vinol with the very best results, and in a short time I began to feel like an entirely different person, and I am better and stronger than I have been for years." Adeline Gamm. (We guarantee this testimonial to be genuine.)

We have never sold in our store such a valuable strength creator and health restorer for the convalescent, the weak and run-down, as Vinol, and we ask people in this vicinity to try a bottle of Vinol, with the understanding that their money will be returned if it does not do all we claim for it.

RESOLUTIONS

Resolutions adopted at the town meeting in the town of Hazelhurst, April 2, 1912.

Whereas, The State of Wisconsin now owns a great amount of land in the town of Hazelhurst, which is exempt from taxation, making taxes proportionately higher on property that remains in private lands, therefore,

Be it resolved, That the electors of the town of Hazelhurst, assembled at their polling place on the 2nd day of April, 1912, ask the legislature to impose a just tax upon the State lands, or otherwise exempt the settlers within the forest reserve from taxation and the state build and maintain roads and schools and bear the expenses of the local government.

Resolved, That these resolutions be entered in the clerk's minutes and become a part of the town records.

Resolved, That the Town Clerk mail a copy of these resolutions to the State Forester and a copy to the Governor of the State.

MUST STOP TRAINS

Answering the petition of A. M. Rogers of Newald, the railroad rate commission has directed the Soo line to stop its local passenger and freight train at the crossing of the Chicago & Northwestern line, three-quarters of a mile east of Laona junction, on signal and for the transportation of freight in less than carload lots.—Crandon Republican.

OVERLAND TRIP WEST

Mason Miller of the town of Pelican, has disposed of his property and next week will leave for a trip to California. He will make the trip overland with a horse and buggy and will be accompanied by an uncle, Martin Brant, of St. Joe, Mich. Starting from here they will drive first to Antigo and Wausau and then strike northward into Minnesota, covering the long journey over what is known as the northern route. Mr. Mason's health has been somewhat impaired of late and he believes that a trip of this kind will be a great benefit to him. He will not attempt to make a record trip but will stop along the way where ever he sees a place that strikes his fancy.

STEKETEE'S

Pin Worm

Destroyer

A tried and efficient remedy especially adapted for destroying and removing Pin Worms, Seat Worms, and all other forms of Worms. Cleanses the stomach and purifies the bowels. This powder is also recommended for the relief of Erysipelas, and is not inferior to the system. It tends to force the Pin and Stomach worms from the stomach and bowels, when no other medicine to my knowledge is known to touch the kind of worm mentioned herein. No family should be without it.

MOTHERS! READ!
Is not itching pines that all YOU or YOUR CHILD. It's the PIN or SEAT WORM that causes you or your child to have such trouble. Soon after retiring for the night the pin worm appears. It bites and stings and causes scratching and itching. Mothers know what it means when your child cries out—Mamma, something is biting me. And sure enough, upon examining her child she finds the naughty white pin worm harp pointed at both ends, embedded in the child's rectum. This worm causes nervousness to young and old people and the itching is not pines, but pin worms. The harmless remedy for this is STEKETEE'S PIN WORM DESTROYER.

Has Your Darling Child a Fever? First of all give it Steketee's Worm Destroyer. HAS IT A FOUL BREATH? Give it Steketee's Worm Destroyer. It cleanses the stomach. HAS IT SPASMS? Give it Steketee's Worm Destroyer. IS YOUR CHILD RESTLESS AT NIGHT? It is worms that all your child. HAS IT FAINTING FITS? A sure sign of worms. The child is restless at night and starts frequently when asleep. Itching and scratching of the anus. In a mere 24 hours the worms are gone. STEKETEE'S WORM DESTROYER. Price, 2c. By mail 2c. Ask druggists for Steketee's Pin Worm Destroyer. Address GEO. G. STEKETEE, 19 Cherry St. Grand Rapids, Mich.

It takes little to make some small men swell up. We saw that demonstrated last week.

Is the plain unvarnished truth put forth for the good of the community, a personal attack, if so we plead guilty.

W. T. Stevens carried this city and county for State Senator by a large vote. His election will take place April 30th.

We agree with the "hired man" of the News fifty dollars is a large amount to the man who has to travel all over the town to save a nickel on groceries.

The Sentinel said before the Illinois primary was held that that would decide Taft's fate. What will they say now after his defeat by Roosevelt by 120,000?

LaFollette defeated Taft in every congressional district of this state and defeated him in the state by over three to one. We see little to console Taft followers in the Wisconsin vote.

Little man Friday, we agree with you, fifty dollars looks big to a man who never earned a much larger monthly salary. It all depends upon a man's view point.

Under the commission system of city government, Eau Claire elected a socialist mayor April 2nd by a majority of 258. Was it because Eau Claire is socialist or as a protest?

Last week the Taft organs all over the state cried that Taft had received a large vote and LaFollette's majority in Wisconsin was largely socialists and democrats. Is the wallowing Roosevelt gave Taft in Illinois due to socialists and democrats, or is it due to disgust of the people for the Taft administration?

The local special interest organ, up the way, calls us socialists. They call LaFollette, Lenroot and McGovern socialists. We are delighted to be classed with such men as these. It gives great joy to have this organ call us what they consider bad names but if they call us anything they think good we shall feel like suing them for libel. There is a class whose praise it will not do to have.

Only three states have voted in a republican primary, Illinois, Wisconsin and North Dakota and three states have spoken in thundering tones against the re-nomination of Taft. Where would Taft be if all states had a presidential primary? Can it be possible in the face of these facts that the old republican machine will force Taft down the throats of his party at the national convention? "The will of the people should be the law of the land" but Mr. Taft says

the people as a whole are a mob and should be guided and held in check by a few. Mr. Taft does not believe in a republican primary for president, do you see why?

THEY RENEW THE QUARREL

Only a few weeks ago the News wished to stop quarrelling with the New North. This was when the New North was putting before the people the record of the News gang on the city water-works and electric lights and now the News bursts forth with a new volley because their man wins by the slightest vote. If the bunch wishes us to shoot more ammunition, we have plenty in reserve. Now about this election, is it a consolation to think their candidate won by a scratch in a three cornered fight? Then think of all the pressure brought about by these big concerns upon their help. Who paid all the help who were working upon the streets election day, the stockholders of the concerns or did these men lose their time? If the concerns paid the men in full, why?

CARY AGAIN SPOUTS

State Superintendent Cary has again made one of his characteristic attacks on the University in the press of the state. This man Cary is certainly looking for a little cheap notoriety. If the University is so bad why has not Mr. Cary as one of the board of regents tried to take some step to reform it or improve it? He has sat on that board eleven years as one of the governing and controlling powers of that institution and never lifted his hand to have a change brought about. The fact is Mr. Cary wants re-election and he knows he can not get it from the intelligent element of the community and so he is going to appeal to the prejudices of the masses. The people of Oneida County are already beginning to get the benefits of the University idea. Mr. Luther, our agricultural teacher, is here at the instigation of the University, and half his salary and expenses are paid by that institution. The Babcock milk tester is a product of a university professor and he refused to take a patent which would have made him rich, because he wanted it to do the most good possible. Watch the many manifestations of great good to the people through our great state institution which Mr. Cary is trying to use for small politics.

NEW WATER POWER BILL

The administration's new water power bill, made public Monday by Gov. McGovern, repeals section 1, 569 a, 15,61 to 1,566 of the statute being part of Chapter 552 of the laws of 1911, and creates thirty-seven new sections.

Some of the New Provisions

"Dams may be built across navigable waters to improve navigation and develop electric energy and hydraulic power, after approval of the state commission. Public hearings upon each application shall be held in Madison after due notice to all persons affected shall have been published.

"Complete maps and profiles showing the lands that may be affected must be shown the commission before work is commenced. The commission is given power to inspect the dam after completion to see that all requirements have been met.

"All hydraulic power developed by such dams shall be converted into energy for sale to the public.

"The owner of any dam constructed pursuant to legislative authority, may apply to the commission for a franchise to maintain it for the purposes set forth in section 1596-2 but a franchise to maintain it for purposes set forth in subdivisions three of that section, shall be granted only to municipalities or to corporations organized under the laws of this state.

"The commission shall first inspect the dam to see that it does not impair public rights, impede navigation or endanger life or property. A franchise granted under this section will be accepted in lieu of any existing franchise.

"All franchise under this act are granted subject to the right of the state to purchase by paying just compensation to be determined by the commission, but in determining such compensation, no allowance shall be made for any franchise or franchise rights.

"Charges or additions to any dam must receive the commission's approval.

"A corporation desiring to acquire dams for public use must first obtain a certificate of convenience and necessity and a hearing must be given in Madison.

"The penalty for violating the act or any order of the commission shall be a forfeiture of \$500.

"The sum of \$10,000 is appropriated to carry out the provisions of the act."

SOCIALISM IN MILWAUKEE

Last Wednesday, the Milwaukee Sentinel came out in bold headlines and declared that the socialists had been wiped off the earth in Milwaukee, perhaps so, but we fail to see the point. In each succeeding election the socialists have gained heavily and both democrats and republicans have fallen off. The conditions for the two old parties were so hopeless this spring that they were compelled to join together to defeat the socialists. Not that there is such an increase in socialism but the two old parties fail to heed the call of the masses and men vote the socialist ticket as a protest. Shall not the old parties be renovated in behalf of the people and stop this rush to the socialist party as a protest. We print below what the Milwaukee Free Press says. They offer no remedy but state the facts. We also state what Comptroller Prendergast said in the republican convention of New York Tuesday. Will we wake up and heed the cries or wait until the two old parties are compelled to join together to make any showing against the socialists as they are compelled to in Milwaukee.

The anti-Socialists of Milwaukee, in their justified jubilation over the non-partisan victory, should bear in mind these figures and their meanings:

In 1906, out of a total registration of 76,650, the Republicans and Democrats together polled 41,182 votes, the Social Democrats 16,837.

In 1908, out of a registration of 83,633, the two old parties polled 41,517 votes, the Social Democrats 20,887.

In 1910, out of a registration of 86,207, the two parties polled 31,876 votes, the Social Democrats 27,008.

In 1912, out of a registration of 90,722, the non-partisan combination of the two old parties polled 42,064, the Social Democrats 20,200.

What do these figures mean?

They mean that within the past six years, in spite of an increase of nearly 14,000 in registration, the combined votes of the Republicans and Democrats of Milwaukee has fallen off over 10,000 votes, while the Social Democratic vote has increased by nearly 12,500.

They mean that while the Socialist vote has increased by big leaps at each election it required the heroic effort of a non-partisan, anti-Socialist campaign to bring the combined Republican and Democratic vote within halting distance of what it was six years ago.

The vote of two years ago was

abnormally low for the old parties and abnormally high for the Social Democrats. The gain of over 2500 votes by the latter in this election, in which they were handicapped by an unsuccessful administration and a united and aroused opposition, is quite as significant as the restoration of over 11,000 votes to the non-partisans column under the circumstances.

We dwell upon these figures at this time, because we believe that their significance should be borne in mind from the very outset by the new administration. That significance is that Socialism, so far from being buried in Milwaukee by this election, is very much alive and kicking, and that it can only be rendered moribund by the achievement of the Harding administration.

If this administration demonstrates that the old parties are capable of effecting a government for Milwaukee that is alive to the demands of this new era of municipal service, in which the affairs of a city are conducted as a business in the public interest and in which the social needs of the community, the just demands of the masses, are as highly regarded as its material necessities and the demands of capital, then indeed will a quietus be put on the advance of Socialism which all the agitation of its bosses' cannot combat.

So, say we, the real defeat of Socialism in Milwaukee has yet to be accomplished and it must be accomplished, if it ever would be, during the next two years.—Milwaukee Free Press.

HITS TAFT AND PLATFORM

Controller Prendergast of New York followed with a vitriolic denunciation of the platform.

"My sense of duty as a republican," he said, "leads me to believe that I would not be fulfilling my whole duty to the party if I did not refute the platform already made. I am going to vote against this platform because I do not believe in the renomination of President Taft.

"There is a widespread unrest everywhere. Socialism has made great headway in this country simply because the two great parties have been unresponsive to the popular demand that the people's rights be restored. You will not stop the spread of socialism until you show the people that they can expect some relief at the hands of the two great parties. The people as a whole are not enjoying prosperity."

This statement electrified the galleries.

DECREE OF CHINESE THRONE

All Repentant Rebels Are Told They Will Be Forgiven and Their Past Buried.

Says a Chinese imperial decree quoted in the North China Daily News, following disturbances in Szechuan and Hupeh: "All persons who have been pressed bodily into service by the rebels, but who will save themselves by returning at once, shall be permitted to turn a new leaf without being questioned as to their past behavior, be they soldiers or people. Whoever shall serve us by killing rebels or by capturing and binding members of the rebellion party, shall be rewarded regardless of rank, upon bringing them before us. Should any roll call book of the rebels be discovered, let it be instantly burned, and not the least inquiry be made that may cause distress.

"Yin Chang, Yuan Shih-kai, Tsen Chun-hsuan and Tuan Fang are hereby ordered to make known the throne's virtuous desire by proclaiming it along their routes with a view to carefully condoning with and reassuring the people. They are also to issue proclamations earnestly exhorting the soldiers, the people and others not to listen to false doctrines or to repeat what they have heard said, and not to believe wild rumors and be vainly intimidated.

"After the issue of this decree, you soldiers, people and others will all understand clearly what is right and what is wrong, or, in other words, what will be to your advantage and what will be the reverse. You should each and all be content with your own lot, for you will thereby second our desire in quelling the disturbance and comforting our subjects."

USE FOR OLD BLUEPRINTS

Bleached by a Simple Process, They Furnish Sketch Paper of a Fair Grade.

In the engineering department of every mine office, blueprints will accumulate until the quantity has reached amazing proportions. Some companies keep a record and file of all prints made and at periodical times destroy the old ones. In addition to this, says the Engineering and Mining Journal, at the time of printing, there is sure to be a certain waste due to poor exposures, blotchy paper, etc. A method for turning this waste into a useful article is presented by E. B. Birkenhead, in the American Machinist.

These old or useless prints may be bleached by immersing them in a soda bath containing four ounces of soda to one gallon of water. If it is desired to bleach only a portion of the print, this may be done by painting that part with the solution. By washing the prints in fresh water, after bleaching, any discoloration is prevented. The blank paper thus obtained furnishes a fair grade of sketch paper, and there are numerous other uses to which it could also be put.

DOCTORS FAILED. RESTORED BY PERUNA.

Catarrh of the Lungs Threatened Her Life.

Miss Ninette Porter, Braintree, Vermont, writes: "I have been cured by Peruna."

"I had several hemorrhages of the lungs. The doctors did not help me much and would never have cured me. I saw a testimonial in a Peruna almanac of a case similar to mine, and I commenced using it."

"I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it was helping me."

"After I had taken it a while I commenced to raise up a stringy, sticky substance from my lungs. This grew less and less in quantity as I continued the treatment."

Mrs. Moffett's Son

"What are you embroidering, Virginia? Each stitch you take seems a labor of love," said Mrs. Haynes.

"Only a little gift for dear Mrs. Moffet. She has the most charming personality, and I'm glad to do it for her."

"How strange I never discovered it. To me she is one of those women who think it more blessed to receive than to give."

"How about her son?" asked Arline.

"Only the other day she said that 'she only hoped her son would marry a congenial girl of good family some day.'"

"Do you know the young man?" asked Mrs. Haynes.

"No, but I hope to meet him in the near future. She is so proud of him. He must be a splendid fellow."

"Isn't she beautiful with her youthful face and that crown of snowy white hair," said Arline. "It's impossible to discover whether she's an old young looking, or young old looking person."

"Girls," said Mrs. Haynes with an air of wisdom, "don't ever try to judge any one's age who lives in a hotel. If she had the trials of housekeeping and a big family to look after, maybe she would be smiling all the time."

Later when Mrs. Moffet and Mrs. Haynes were seated opposite each other at the dining table, Mrs. Moffet said "there isn't any plausible reason why all the young girls should be so attentive to me."

"Aren't you fond of young people's society?" asked Mrs. Haynes.

"Surely, I'm still young in my ideas and can enter into all the feelings and emotions of a young girl's heart."

"The maidens are not so innocent nowadays. The way the girls try to coerce the boys into showing them a good time amuses me. In my time it was the youth who courted the girl. As to respect to their elders it is 'Parents thou shalt honor your children.' The father is looked upon as a perambulating check book, and the mother as a prospective mother-in-law to some eligible young man."

"You're too cynical, Mrs. Haynes. You never had any children, that's the reason you are so harsh in judging other people's children. Ever since I arrived at this hotel I have been the recipient of kindness from all the young ladies."

"I thought," answered Mrs. Haynes, "that I overheard Arline and Virginia say you invited them to stay a couple of weeks at your home in the country."

"Yes, they accepted my cordial invitation instantly. Could I do less, when they devoted their whole time graciously to me? Each vied with the other in showing their real friendship."

"Then they will have a chance to meet your son," interposed Mrs. Haynes.

"Only once or twice have I mentioned my personal affairs, but believe I told them that Clarence will be delighted to meet them and what a lovely charming son he is."

"They were wondering whether he was a professional man or in business."

"Absurd—I told them Clarence was nearly six feet tall and weighed 160 pounds, but I thought they knew he was only fifteen years old."

After dinner Mrs. Moffet said, "Just received the latest novel. 'If you see any of the young ladies will you ask them if they care to read aloud to me for an hour or so.'"

When Mrs. Haynes repeated the request to the girls each one offered their services.

"I'd just love to oblige Mrs. Moffet," said Arline.

"Since when are you so obliging. I thought you said you were so fatigued," insisted Virginia, "now don't trouble yourself I'll read tonight as I have nothing else to do."

"But before you decide which shall have the coveted honor, let me announce to you that the grand young man whom Mrs. Moffet has been raving about is only a lad fifteen years old."

"The ideal! I'm sorry, but I can't read aloud tonight," said Arline, "I have a previous engagement."

"Don't count on me," said Virginia, "I'm going to try some new music. Eva will be glad to accommodate her."

"Certainly not," remarked Eva, "she's fooled us all long enough with hints and suggestions about her charming son."

Just then Mrs. Moffet glided in with a telegram in her hands.

"Goodness!" she exclaimed, "my son just wired that he is going to spend the holidays with me here. I feared it was too far for him to come during vacation."

"Who will help me plan some surprise for him, and I know he'll show his appreciation to you all when you visit me next summer."

"Really," commenced Virginia, "I've other plans for next summer so Agnes can accept your invitation."

"Oh, dear, I'm so disappointed, but then Arline you must stay all the longer," returned Mrs. Moffet.

"She's been so enthusiastic about the rustic country life."

"I am so sorry, Mrs. Moffet, but I am going to stay home this summer, and will have to look upon this visit as a deferred pleasure," replied Arline.

SKOVGAARD, THE VIOLINIST

Read What the Newspapers Say Of This Great Artist

Milwaukee, Wis., Free Press.—The concert by Axel Skovgaard, the Danish violinist, was an artistic triumph, and no one could have been accorded a warmer welcome than this dignified and pleasing giant. The large audience was wildly enthusiastic from start to finish, and the evening was a delightful one.

A program of unusual merit was presented, opening with the seldom performed (in this country) "Sonata in E Minor" by Emil Sjogren.

This was a most soulful bit of work, and in it his great temperament found a splendid field.

Herr Skovgaard's technical equipment is something to throw the average violinist into despair, and the student into a fervor of ambition.

His playing has fathomless resources of smoothness and dexterity, yet it never relapses into mere trickery, either in speed or force.

All this was clearly demonstrated in compositions by Sarasate, Schubert and himself.

LAW TO MUZZLE ROOSTERS

In Los Angeles They Mustn't Crow Before 7 in the Morning, If Ordinance Passes.

Los Angeles roosters must get together on their crowing. The city attorney has been asked to draft an ordinance which will make it unlawful for roosters to crow earlier than 7 o'clock in the morning, Pacific time. There must be more unity of effort among the chanticleers—less of individual endeavor at any old hour of the night that the rooster feels like crowing.

Mrs. Genevieve Dalrymple of 2339 East Seventh street, in taking her complaint to the city council, merely acted as messenger for many thousands who are unable to sleep because of crowing roosters, who start about midnight and keep it up until morning.

"Leave it to the city attorney. He will find some way to fix it," said Chairman Andrews of the legislation committee. With this meager instruction, John W. Shank, the city attorney, started somewhat on this order:

"The mayor and city council of the city of Los Angeles do ordain that it shall be unlawful for roosters to crow between the hours of 7 p. m. and 7 a. m. All roosters found guilty of violation of this ordinance shall be sentenced to be the principal ingredient of a poppie."

Simplicity isn't Rudeness
In seeking the simple life you must cast off the artificialities of life, but you need not abandon its refinements. There is nothing complex or complicated about culture. A stable and a bathroom are not inherently incompatible. —From "The Richer Life," by W. A. Dyer.

CHILDREN WIN SUIT

Judge Reid of this circuit has sustained the verdict of Judge Billings of the Oneida county court in the suit of the children of the late W. F. Ball of this city, against the widow of the deceased. This means that the children are awarded the verdict.

Got Any?
The fall of the year always lays a special strain upon the nation's financial resources. For not only is there the money needed to move the crops, but also those great rolls of bills which prudent men, in putting away their tight clothing, do not forget to forget in the pockets thereof, in order that they may come joyfully to light next summer.—Puck.
